

An ideal tool for
All **fogging** disinfectants,
fumigants, biocides, fungicides,
sanitizers & pesticides.

BIO-FOGG FOGGERS

Description

The Fogger with Digital Timer is a **digital product, specially designed for the humidifying of reptile habitats**. It controls the frequency, time and amount of fog during a certain period of time to provide a suitable humid environment for reptiles that are being kept in terrariums.

Standard Features

- ◆ The highest number of features & highest area coverage as compared to any other conventional fogger in its category.
- ◆ High-density engineering plastic body to ensure portability & resist chemical attack.
- ◆ Since the supplied liquid is broken into very fine particles on the nozzle assembly itself and the aluminum body does not come in contact with the chemical, internal corrosion and chemical attack are avoided.
- ◆ The unit comes pre-fitted with a liquid flow control valve for ease of use. Fog output is controlled with this valve. Higher the volume of output, larger will be the fog particles and vice versa.

Applications

- Hospitals
- Laboratories
- Pharma
- Clean Room
- Healthcare
- Biotech and Microbial related area.

Also in :-

- Dairy,
- Pest Control,
- Food Processing,
- Hatcheries

Presenting the all new and much superior **20 Series**

Rotostand

360° ROTO TURN TABLE

Presenting the all new, Roto-Table (An Accessory). A 360° Rotating Device from J & S Enterprises that vastly improves the performance of FOGG-PRO fogger

SALIENT FEATURES:

- ❑ 360 rotation increase area coverage. Almost thrice than, without it.
- ❑ Help fog spread in all direction & reach every corner of the space.
- ❑ Ensures 'equal' distribution of the fog into the air.
- ❑ Prevent Condensation of fog particles due to the movement.
- ❑ Saves time as effectively treat the area in less time.
- ❑ NIL maintenance & trouble free operation.

SS 316 grade Nozzle Assembly

Digital timer with inbuilt hour counter

SS 316 grade flow control mechanism

Electronic timer (Adjustable 5- 60 min)

Specification

Model	BSF -02	BSF- 04	BSF- 06	BSF- 08
Timer Devices	Digital timer(1-99 min)			
Working hours counter	Avilable			
Particle Size	D to Submicrons			
Liquid flow rate	1-3 Lts/hr adjustable		1-3Lts/hr Fixed	
Flow control machenism	Available SS - 310		Not applicable	
Nozzle System	5s316 grade			
Tank Capacity	8Lts	6.5Lts	8Lts	6.5 Lts
Noise Level	< 86 db 1 meter			
Air Filter	Triple Stage with clamp			
Area Coverage	> 16000, cubic fts			
Moter speed	22000 RPM(APPROX)			
Power Supply	230V AC, 50/60 Hz			
Material of construction	Hardware SS304, Strainer, Nipples SS316 Tubing: Silicon grade			
Dry Weight	7- 8 kg			

Additional Information:

Delivery Time: Ready Stock

Packaging Details: Corrugated Box
(Export Packing)
